Volume 23 Number 1

ANNOUNCEMENT

To the scientists and writers of IJHC articles: In the next phase of our development, IJHC has become a member of Cross Reference and is implementing Digital Object Identifiers (DOI) numbers for all research, theory and case study articles in the journal. It will take us several months to update all 23 years of those articles. Please be patient as we move IJHC in to the next phase of development in support of holistic health and healing. We will contact individual authors to let them know that their article has been updated. Authors, please remember to update your resume/CV materials with the correct DOI added to your bibliographic references.

Thank you!
The IJHC Team
